- Tire Size: 18
- Color: Black
- Range Per Power: 31 - 60 Km
- Highlight: **Comfortable Electric Hybrid Bike,
Disc Brakes Electric Hybrid Bike ,
2.25-17 Electric Hybrid Bike**

Product Description

Product Description:

What sets this bike apart is its hybrid power system. It combines the best of both worlds by using both pedal power and an electric motor. The result is a bike that's easy to ride, yet still offers plenty of power when you need it. With a torque range of 60-70 Nm, you'll have no trouble conquering hills or reaching top speeds.

The Hybrid Electric Bicycle is powered by a lead acid battery. This type of battery is known for its reliability and longevity, so you won't have to worry about replacing it anytime soon. With a range per charge of 25-32KM, you'll be able to get where you need to go without having to stop and recharge frequently.

The bike's 2.25-17 tubeless tires provide a smooth and comfortable ride, while also being durable enough to withstand punctures and other hazards on the road. And despite its powerful motor, the bike is surprisingly quiet and won't disturb your neighbors or fellow commuters.

Whether you're commuting to work, running errands, or just taking a leisurely ride around town, the Hybrid Electric Bicycle is an excellent choice. It's efficient, reliable, and easy to use, making it a great investment for anyone looking to reduce their carbon footprint and save money on transportation costs.

Features:

Product Name: Hybrid Electric Bicycle

Color: Black

Range Per Power: 31 - 60 Km

Weight: 20 Kg

Foldable: NO

Motor Position: Rear Hub Motor

Applications:

The Thunder Electric Bike is powered by a lead-acid battery that provides reliable and long-lasting power. The battery is rechargeable, so you can easily juice it up whenever it runs low. With its 36V 8Ah Lithium-ion battery, you can ride the bike for long distances without worrying about battery drainage.

The bike's aluminum alloy frame is lightweight, durable, and corrosion-resistant. It can withstand the wear and tear of daily use and the elements, ensuring that it lasts for years. The rear hub motor's position maximizes the bike's stability and efficiency, making it easy to maneuver, control, and ride.

The Thunder Electric Bike comes in black color, giving it a sleek and stylish look that is perfect for urban commuting. It is perfect for people who want to travel to work, school, or other places without getting stuck in traffic, paying for parking, or worrying about fuel costs. This hybrid electric bicycle is suitable for a wide range of occasions and scenarios. You can use it to commute to work, run errands, exercise, or explore your surroundings. Its hybrid design allows you to switch between electric and pedal power, giving you the freedom to choose the mode that best suits your needs and preferences.

Overall, the Thunder Electric Bike is a versatile, efficient, and practical transportation solution that combines the convenience of an electric bike with the reliability and flexibility of a traditional bicycle. Whether you are a student, professional, or recreational cyclist, this hybrid electric bicycle is the perfect choice for you.
