Product Description

Product Description:

The LCD display on the handlebar allows you to easily monitor your speed, battery life, and other important information. You can easily switch between different modes, such as pedal assist or throttle, to suit your riding needs. The Crank Motor E-Cycle has a maximum speed of 25 km/h, making it perfect for commuting or leisurely rides.

The Crank Motor E-Cycle comes with a port that can be found in either Shanghai or Ning Bo, depending on your preference. This ensures that you have easy and convenient access to our product no matter where you are located.

Experience the power of the Crank Motor E-Cycle as you effortlessly ride through city streets or scenic countryside paths. Its advanced technology and premium construction make it a reliable and durable choice for any rider. Get yours today!

Features:

Product Name: Mid Drive Electric Bike

Display: LCD

Derailleur: 9-speed-gears

Motor: 48V 250W TRUCKRUN Mid Drive

Frame Material: Aluminum Alloy

Port: Shanghai Or Ning Bo

This Crank Motor E-Cycle features a powerful 48V 250W TRUCKRUN mid drive motor and a durable aluminum alloy frame. The 9-speed-gears derailleur provides smooth shifting, while the LCD display allows for easy monitoring of speed and battery life. It is available for shipping from either the Shanghai or Ning Bo port.

Applications:

The Thunder Electric Bike is ideal for a wide range of occasions and scenarios. For example, it is perfect for commuting to work or school, as it allows riders to travel quickly and easily without having to worry about traffic or parking. It is also great for running errands or doing grocery shopping, as it has plenty of space on the rear carrier to carry items. Additionally, it is a great way to explore the outdoors, as it is equipped with front suspension that provides a comfortable ride on all types of terrain.

One of the key benefits of the Thunder Electric Bike is its Crank Motor E-Cycle technology. This technology allows riders to pedal the bike while also receiving assistance from the electric motor. This makes it easier to climb hills or ride for longer distances without getting tired. The bike also has a range of up to 80 km on a single charge, making it a reliable and efficient mode of transportation.

In summary, the Thunder Electric Bike is a great choice for anyone who is looking for a reliable, efficient, and eco-friendly mode of transportation. Whether you are commuting to work or school, running errands, or exploring the great outdoors, this Crank Motor E-Cycle is sure to meet your needs. With its high-quality components and advanced technology, it is a great investment that will provide years of reliable service.
