Product Specification

- Brake Type: Disc
- Controller: Sine Wave Controller
- Battery: 48V-60V 20Ah Lead-acid Battery
- Tire Size: 120/70-12
- Motor Type: Brushless
- Loading Capacity: 150kgs
- Motor: Brushless
- Wheel Size: 14 Inches
- Highlight: **6-8 Hours E Scooter, Fast Charging E Scooter, 45 Km/H E Scooter**

Product Description

Fast Charging E-Scooter Electric Cycle Max Speed 45 Km/h Charging Time 6-8 Hours

Product Description:

Equipped with a powerful 48V-60V 20Ah Lead-acid Battery, this E-Scooter Electric Cycle can take you up to 45 Km/h, making it a perfect choice for city commutes. The battery is easy to charge and offers long-lasting performance, ensuring that you never run out of juice on your way to work or school.

The E-Scooter Electric Cycle features a Disc brake type, which ensures quick and responsive braking, giving you complete control over your ride. The seamless steel tube frame material ensures that the cycle is sturdy and durable, making it suitable for daily use. Whether you are looking to reduce your carbon footprint, save money on fuel costs, or simply enjoy a smooth and comfortable ride, the E-Scooter Electric Cycle is an excellent choice. It is perfect for commuting to work, running errands, or exploring your city. So why wait? Get your E-Scooter Electric Cycle today and start enjoying the benefits of an eco-friendly and effortless commute!

Battery: 48V-60V 20Ah Lead-acid Battery
Tire Size: 120/70-12
Brake Type: Disc
E-Scooter Electric Cycle, E-Scooter Electric Cycle, E-Scooter Electric Cycle

Applications:

One of the key features of the Thunder Electric Bike is its front and rear shock absorbers, which provide exceptional stability and comfort on any terrain. Whether you're riding on smooth city streets or rough country roads, this electric motorcycle is designed to deliver a smooth and comfortable ride every time.

Another key feature of the Thunder Electric Bike is its fast charging time of just 6-8 hours, which makes it easy to recharge the battery and get back on the road quickly. With a top speed of 40-45KM/H, this electric motorcycle is perfect for anyone who wants to get around quickly and efficiently, without sacrificing comfort or style.

The Thunder Electric Bike also features a state-of-the-art sine wave controller, which provides precise control and smooth acceleration in any situation. Whether you're navigating through traffic or taking on challenging terrain, this electric motorcycle is designed to deliver reliable performance and exceptional handling at all times.

The frame of the Thunder Electric Bike is made from seamless steel tube, which provides excellent durability and strength without adding unnecessary weight. This makes it easy to maneuver and control, even in tight spaces or crowded streets.

Overall, the Thunder Electric Bike is a versatile and reliable E-Scooter Electric Cycle that is perfect for a wide range of occasions and scenarios. Whether you're commuting to work, running errands, or just enjoying a leisurely ride, this electric motorcycle is the perfect choice for anyone who wants to get around quickly, efficiently, and stylishly.
