Product Description

Front Fork Suspension Motorized Mountain Bike equipped with SHIMANO 11 Speed's Shifter

Product Description:

The Motorized Mountain Bike boasts an Aluminum Alloy frame that is both lightweight and sturdy, making it perfect for off-road adventures. The Suspension Fork ensures that you have a smooth and comfortable ride even on the most challenging terrains. One of the most impressive features of this bike is its powerful 48V voltage, which gives the bike the strength it needs to conquer any mountain. The Full Suspension system ensures that you have maximum control and stability, even when you're going downhill at high speeds.

Whether you're riding uphill or downhill, the Motorized Mountain Bike has got you covered. Its motor is powerful enough to give you the boost you need to climb any hill, while its advanced braking system ensures that you can stop safely and quickly when you need to. With its sleek and modern design, the Motorized Mountain Bike is definitely a head-turner. It has a maximum load capacity of 110PCS/1X20'gp and 290PCS/1X40hq, making it a great option for those who want to go on group rides with their friends. If you're looking for a bike that can take you on the most challenging trails, then the Motorized Mountain Bike is definitely the one for you. With its advanced features and impressive specs, you're sure to have an unforgettable adventure every time you ride it!

Features:

Product Name: Electric Mountain Bike

Type: Full Suspension

Frame: 27'5" Aluminum Alloy
