Product Description

Product Description:

An Electric Foldable Bicycle is a convenient and eco-friendly mode of transportation that caters to the modern individual's needs for mobility and sustainability. The Electric Folding Bike with a sturdy Steel frame offers durability and reliability for daily commutes or leisure rides.

Equipped with a powerful 48V 10AH battery, this Electric Foldable Bicycle ensures a long-lasting and efficient riding experience. The high-capacity battery allows riders to cover longer distances without the need for frequent recharging, making it ideal for urban commuters and outdoor enthusiasts.

The Brushless motor of the Electric Foldable Bicycle provides a smooth and silent operation, delivering a seamless riding experience without unnecessary noise or vibrations. This innovative motor technology also contributes to the bike's energy efficiency, maximizing the battery life and overall performance.

Featuring Front and Rear Disc Brakes, this Electric Foldable Bicycle offers reliable stopping power and enhanced safety on various terrains. The disc brakes provide responsive and precise braking performance, allowing riders to maintain control and confidence during their journeys.

The Steel frame of the Electric Foldable Bicycle ensures stability and strength, making it suitable for different riding conditions and user preferences. The robust construction of the frame enhances the bike's overall durability and longevity, promising years of enjoyable rides and adventures.

Whether you are navigating busy city streets, exploring scenic trails, or simply commuting to work, the Electric Foldable Bicycle offers a versatile and practical solution for your transportation needs. Its foldable design allows for easy storage and transportation, making it convenient to bring along on trips or store in compact spaces.

Experience the freedom and flexibility of an Electric Foldable Bicycle with the reliability and performance you need for your daily travels. Embrace a greener and more efficient way of getting around while enjoying the convenience and comfort of this modern electric bike.

Features:

Product Name: Electric Pocket Bike

Voltage: 48V

Tire: 14inch

Range Per Power: > 60 Km

Brake: Front Rear Disc Brake

Applications:

Electric Foldable Bicycles from Thunder Electric Bike are versatile and convenient transportation options suitable for various occasions and scenarios. The Thunder Electric Bike model TH-192 electric pocket bike, originating from Zhejiang, offers a blend of portability and performance, making it an ideal choice for individuals seeking a reliable electric folding bike.

With its CE certification, the Thunder Electric Bike TH-192 ensures safety and quality standards are met, providing users with peace of mind during their rides. The electric foldable bicycle boasts a range per power of over 60 km, allowing riders to cover significant distances without worrying about running out of battery.

The 14" wheel size of the Thunder Electric Bike TH-192 contributes to its compact design, making it easy to maneuver through crowded urban streets or store in small living spaces. The steel frame and derailleur provide durability and smooth gear transitions, enhancing the overall riding experience.

Whether commuting to work, running errands, or exploring new paths, the Thunder Electric Bike TH-192 electric pocket bike is a reliable companion for urban commuters and outdoor enthusiasts alike. Its foldable design enables users to easily transport the bike on public transportation, store it in tight spaces, or take it along for outdoor adventures.

Experience the convenience and eco-friendly benefits of an Electric Foldable Bicycle with the Thunder Electric Bike TH-192. Embrace sustainable transportation options without compromising on performance, style, or functionality. Choose Thunder Electric Bike for a seamless riding experience on your daily commutes or weekend excursions.
