Basic Information

- Place of Origin: zhejiang
- Brand Name: Thunder Electric Bike
- Model Number: TH-T20

Product Specification

- Charging Time: >3 Hours
- Power Supply: Lithium Battery
- Battery Position: Integrated Battery
- Torque: 60-70 Nm
- Voltage: 48V
- Wheel Size: 20"
- Range Per Power: 31 - 60 Km
- Product Name: Fat Tire Electric Bike
- Highlight: **30-50Km/H Hybrid Electric Bicycle,
48V 18AH Hybrid Electric Bicycle,
Lithium Battery Electric Hybrid Bike**

Product Description

Product Description:

A Hybrid Electric Bicycle is the perfect blend of traditional biking and modern technology, offering riders the best of both worlds. One standout model in this category is the Electric Hybrid Bike, designed to provide a smooth and efficient riding experience.

Key Features:

Torque: With a torque ranging from 60 to 70 Nm, this Electric Hybrid Bike delivers powerful performance that allows riders to conquer various terrains with ease. Whether you're cruising along city streets or tackling challenging hills, the bike's impressive torque ensures a seamless and enjoyable ride.

Battery: Equipped with a high-capacity 48V 18AH Lithium Battery, this Electric Hybrid Bike offers long-lasting power to support your adventures. Say goodbye to frequent recharging breaks and enjoy extended rides without worrying about running out of battery.

Frame Material: The frame of this Electric Hybrid Bike is crafted from durable Aluminum Alloy, providing a perfect balance of strength and lightweight design. The sturdy frame ensures stability and durability, while the lightweight nature of aluminum enhances maneuverability and overall riding comfort.

Gears: Featuring a 7-speed gear system, this Electric Hybrid Bike offers versatile options for adjusting your riding speed and intensity. Whether you prefer a leisurely cruise or a challenging sprint, the 7-speed gears allow you to find the perfect setting for your riding style.

Charging Time: The Electric Hybrid Bike boasts a convenient charging time of under 3 hours, making it quick and easy to replenish your battery and get back on the road. Spend less time waiting and more time enjoying the ride with this efficient charging feature.

Enhance your cycling experience with the Electric Hybrid Bike, a reliable and high-performance choice for riders seeking a combination of traditional biking charm and modern electric technology. With its powerful torque, long-lasting battery, durable frame, versatile gears, and fast charging time, this bike is designed to meet the needs of both casual riders and cycling enthusiasts alike. Explore new horizons, tackle challenging terrain, and enjoy the freedom of riding with the Electric Hybrid Bike.

Features:

Product Name: Fat Tire Electric Bike

Braking System: Disc Brake

Torque: 60-70 Nm

Frame Material: Aluminum Alloy

Battery Capacity: 18AH

Applications:

Product Application Occasions and Scenarios for the Thunder Electric Bike TH-T20:

The Thunder Electric Bike TH-T20 is a versatile and powerful Hybrid Electric Bicycle designed to provide an exceptional riding experience across various terrains and situations.

1. **Commuting:** The TH-T20 is an ideal choice for daily commuting, offering a convenient and eco-friendly transportation solution. Its hybrid electric design allows riders to pedal with assistance from the rear hub motor, making urban commuting efficient and enjoyable.

2. **Outdoor Adventures:** With its fat tires and robust construction, the TH-T20 is perfect for outdoor adventures such as trail riding, mountain biking, and exploring rugged terrains. The integrated battery and rear hub motor provide the necessary power and torque to tackle challenging trails with ease.

3. **Leisure Rides:** Whether cruising around the neighborhood or enjoying a leisurely ride in the park, the TH-T20 offers a comfortable and smooth riding experience. The 18AH battery capacity ensures long-lasting power for extended rides, while the rear hub motor delivers a torque of 60-70 Nm for effortless pedaling.

4. **Fitness and Health:** The TH-T20 encourages riders to stay active and fit by providing adjustable levels of assistance through its hybrid electric system. It is a great choice for those looking to combine exercise with the convenience of electric assistance.

5. **Eco-Friendly Transportation:** As a Hybrid Electric Bicycle, the TH-T20 promotes sustainable and eco-friendly transportation solutions. By reducing reliance on fossil fuels and emissions, riders can contribute to a cleaner and greener environment while enjoying the benefits of electric assistance.

FAQ:

Q: What is the brand name of this electric hybrid bike?

A: The brand name of this electric hybrid bike is Thunder Electric Bike.

Q: What is the model number of this electric hybrid bike?

A: The model number of this electric hybrid bike is TH-T20.

Q: Where is this electric hybrid bike manufactured?

A: This electric hybrid bike is manufactured in Zhejiang.

Q: Is this electric hybrid bike suitable for off-road riding?

A: Yes, this electric hybrid bike is suitable for off-road riding due to its durable construction and powerful electric motor.

Q: How long does the battery last on a single charge?

A: The battery of this electric hybrid bike can last up to 50 miles on a single charge, depending on riding conditions and terrain.
