## Product Description

### Product Description:

Welcome to our Electrically-Enhanced Road Bike product summary! This innovative and high-performance electric road bike is designed to elevate your cycling experience to a whole new level.

Equipped with a sturdy Steel Front Fork, this bike ensures excellent stability and control, allowing you to tackle various terrains with ease. The 700C wheel size further enhances the bike's agility and responsiveness, making it a perfect choice for road cycling enthusiasts.

The Electrically-Enhanced Road Bike features a Fixed Gear derailleur, providing smooth and efficient gear shifting for a seamless riding experience. Whether you're cruising along urban streets or embarking on long-distance rides, this bike offers reliable performance every time.

With a maximum speed of under 30km/h, this electric road bike strikes a perfect balance between speed and safety. Whether you're commuting to work or enjoying a leisurely ride on the weekend, you can confidently navigate through traffic and enjoy the thrill of cycling. Powered by a torque range of 30-50NM, this bike delivers impressive acceleration and climbing power, allowing you to conquer steep hills and challenging inclines with ease. The electric assist feature provides a boost when you need it most, making your rides more enjoyable and effortless.

Experience the ultimate combination of power, performance, and style with our Electrically-Enhanced Road Bike. Whether you're a seasoned cyclist looking to enhance your training or a casual rider seeking a fun and convenient mode of transportation, this electric road bike is the perfect choice for all your cycling adventures.

### Features:

Product Name: Electrically-Enhanced Road Bike

Torque: 30-50NM

Display: LCD Display

Warranty: 2 Years

Power: 31 - 60 Km

Brake: Front And Rear Caliper Brakes

### Applications:

Thunder Electric Bike TH-V 02 is an Electrically-Enhanced Road Bike designed for various application occasions and scenarios. With its powerful motor providing a range of 31 - 60 Km and torque between 30-50NM, this electric road bike is suitable for a wide range of uses. Whether commuting to work, running errands around town, or enjoying a leisurely ride on the weekend, the Thunder Electric Bike TH-V 02 offers convenience and efficiency. Its front and rear caliper brakes ensure reliable stopping power, while the single-speed gear provides simplicity and ease of use.

For urban commuters looking to navigate city streets with ease, this electric road bike is a perfect choice. Its 700Cx25C tires offer a smooth ride and excellent traction on various road surfaces, making it ideal for daily commuting and recreational rides alike.

Designed in Zhejiang, the Thunder Electric Bike TH-V 02 combines quality craftsmanship with modern technology to deliver a reliable and enjoyable riding experience. Whether you're a seasoned cyclist or a beginner looking to explore the world of electric bikes, this model offers the perfect balance of performance and comfort.

Experience the convenience and innovation of electric biking with the Thunder Electric Bike TH-V 02. Whether you're navigating busy city streets, exploring scenic routes, or simply enjoying a leisurely ride, this Electrically-Enhanced Road Bike is a versatile and reliable companion for all your cycling adventures.
