Basic Information

- Place of Origin: zhejiang
- Brand Name: Thunder Electric Bike
- Model Number: TH-MX3

Product Specification

- Battery Position: Integrated Battery
- Frame Material: Aluminum Alloy
- Braking System: Hydraulic Disc Brake (Hydraulic Brake Pad)
- Product Name: Mid Drive Electric Bike
- Torque: 50-60 Nm
- Voltage: 48V
- Power Supply: Lithium Battery
- Range Per Power: 31 - 60 Km
- Highlight: **Eco Friendly Transportation,
Crank Motor E Cycle, Lithium BatteryE Cycle**

Product Description

Product Description:

The Mid Drive Electric Bike, also known as a Crank Motor E-Cycle, is a top-of-the-line electric bike designed for both performance and durability. With its powerful 48V 20.4Ah battery capacity, this e-cycle offers an impressive range and long-lasting power for your rides. Equipped with front and rear hydraulic disc brakes, the Mid Drive Electric Bike ensures reliable and efficient braking power, giving you peace of mind during your adventures. Whether you're cruising around the city or hitting the trails, these brakes provide excellent stopping power in any conditions.

One of the standout features of this e-cycle is its central motor position, which enhances the overall balance and stability of the bike. The central motor design also contributes to a smoother and more natural riding experience, making every journey comfortable and enjoyable. Experience thrilling speeds with the Mid Drive Electric Bike, capable of reaching up to 30-50 km/h depending on the terrain and riding conditions. Whether you're looking for a quick commute or a fun weekend ride, this e-cycle delivers the performance you need to get where you're going in style.

Ride with confidence and style on the Mid Drive Electric Bike, a premium e-cycle that combines cutting-edge technology with exceptional design. Perfect for riders of all levels, this bike offers a smooth and powerful performance that will elevate your cycling experience to new heights.

Features:

Product Name: Mid Drive Electric Bike

Battery Capacity: 48V 20.4Ah

Battery Position: Integrated Battery

Voltage: 48V

Charging Time: >3 Hours

Applications:

Thunder Electric Bike's model TH-MX3, a Crank Motor E-Cycle, is a versatile and powerful electric bike suitable for a variety of application occasions and scenarios. With its origin in Zhejiang, this electric bike is designed to provide a smooth and efficient ride experience, making it ideal for both urban commuting and off-road adventures.

The 26" wheel size of the Thunder Electric Bike TH-MX3 ensures stability and control, making it suitable for different terrains. Whether you are navigating through city streets or tackling rough trails, this electric bike can handle it all with ease. The front and rear hydraulic disc brakes provide reliable stopping power, ensuring safety in various riding conditions.

Equipped with a torque of 50-60 Nm, the Thunder Electric Bike TH-MX3 delivers impressive acceleration and hill-climbing capabilities.

The 9-speed gears allow riders to easily adjust the speed and intensity of their ride, offering a customizable riding experience. The hydraulic disc brake system with hydraulic brake pads ensures precise and responsive braking, giving riders confidence and control.

The Thunder Electric Bike TH-MX3 is perfect for commuters looking to breeze through traffic or outdoor enthusiasts seeking adventure in nature. Whether you are looking to reduce your carbon footprint during daily commutes or explore new trails with ease, this Crank Motor E-Cycle is the ideal companion. Its versatile design and reliable performance make it a great choice for riders of all levels.
