Product Description

Product Description:

The Beach Cruiser Electric Bike is a premium electric bike designed for those who love leisurely rides along the beach or through the city streets. With its sleek design and powerful performance, this electric bike offers a unique riding experience that combines style and functionality.

The 48v 500W Electric Bike is equipped with a powerful 500W motor that provides smooth and efficient power delivery for a comfortable and enjoyable ride. Whether you are cruising along the beach or tackling city streets, this electric bike offers a smooth and effortless riding experience.

Featuring 6-speed gears, the Beach Cruiser Electric Bike allows you to easily adjust the speed and resistance to suit your riding preferences. Whether you prefer a leisurely ride or a more challenging workout, this electric bike offers versatility and adaptability to meet your needs.

With 26" x 2.1 Kenda Tires, the Beach Cruiser Electric Bike provides excellent traction and stability on various terrains, ensuring a smooth and stable ride every time. Whether you are riding on sandy beaches or paved streets, these high-quality tires offer reliability and performance for a confident riding experience.

Equipped with a torque of 60-70 Nm, the Beach Cruiser Electric Bike delivers powerful performance that allows you to tackle hills and inclines with ease. Whether you are facing steep slopes or challenging terrains, this electric bike offers the torque needed to conquer any obstacle and enjoy a smooth and effortless ride.

With a charging time of less than 3 hours, the Beach Cruiser Electric Bike ensures that you spend more time riding and less time waiting for your bike to recharge. Whether you are commuting to work or exploring the great outdoors, this electric bike offers convenience and efficiency with quick and reliable charging capabilities.

Overall, the Beach Cruiser Electric Bike is a versatile and high-performance electric bike that offers a unique riding experience for riders of all levels. With its powerful motor, adjustable gears, high-quality tires, and quick charging time, this electric bike is the perfect choice for those who seek style, comfort, and performance in one sleek package.

Features:

Product Name: Beach Cruiser Electric Bike

Frame Material: Aluminum Alloy

Charging Time: >3 Hours

Braking System: Disc Brake

Range Per Power: 31 - 60 Km

Torque: 60-70 Nm

Applications:

The Thunder Electric Bike THP-227 is a versatile Beach Cruiser Electric Bike designed for various application occasions and scenarios. With its stylish design and powerful features, this electric bike is perfect for leisure rides, commuting, and outdoor adventures.

Whether you're cruising along the sandy shores of the beach, exploring scenic coastal routes, or simply enjoying a relaxing ride around the neighborhood, the Thunder Electric Bike THP-227 offers a smooth and comfortable riding experience. The aluminum alloy frame provides durability and stability, making it suitable for different terrains.

Thanks to its 48V voltage and rear hub motor position, the Thunder Electric Bike THP-227 delivers efficient power assistance while maintaining a maximum speed of <30km/h, ensuring a safe and enjoyable ride. The 26" wheel size further enhances stability and control, making it ideal for beach cruising and leisurely rides.

Whether you are looking to enjoy a leisurely ride along the beachfront, commute to work in style, or explore scenic coastal trails, the Thunder Electric Bike THP-227 is a reliable companion for all your adventures. Its Beach Cruiser Electric Bike design makes it a perfect choice for riders of all levels, providing a unique and enjoyable riding experience.

Experience the thrill of riding the Thunder Electric Bike THP-227 and discover the freedom and convenience that comes with owning a high-quality Beach Cruiser Electric Bike. Made in Zhejiang, this electric bike combines style, performance, and comfort, making it a versatile option for various riding occasions and scenarios.
